benefit

# **Blue Cross and Blue Shield of Kansas City** **2015 Prescription Drug List**

## **Introduction**

The Prescription Drug List (PDL) has been developed and is maintained by the Medical and Pharmacy Management Committee of Blue Cross and Blue Shield of Kansas City (Blue KC). The committee is composed of practicing doctors and pharmacists within the Kansas City area. Quarterly meetings are held to evaluate new drug therapies and review drug utilization issues.

Medications are evaluated on the basis of safety, effectiveness, adverse events, proven advantages over existing agents and cost. All medications are assigned to one of three copay levels: Tier 1, Tier 2 and Tier 3. Tier 1 medications are typically generic drugs that contain the same active ingredients as brand name drugs and have the lowest copay. Tier 2 and Tier 3 medications are typically brand name drugs. Tier 2 has a mid-range copay and Tier 3 has the highest copay and includes medications with an available generic equivalent and new drugs that are being reviewed. Any new brand name drug will automatically be assigned to the highest copay tier until reviewed by the committee.

While extensive, this is not an exhaustive list of all available medications and this list is subject to change. The most current PDL is available on our website at [www.BlueKC.com](http://www.BlueKC.com). If you require additional information or clarification, contact our Clinical Pharmacy unit at 816-395-2176 or 800-228-1436.

**Please be aware that as new products are released and post-marketing information on existing therapies becomes available, changes in the PDL status (Tier 2 to Tier 3) may occur.** The committee may also implement prior authorization or other utilization management processes as deemed necessary. Doctors and pharmacists will be notified of any such changes via newsletter and direct mailings.

## **Prior Authorization/Drug Utilization Management**

Due to concerns with appropriate use, certain medications or classes of medications may require prior authorization. Your doctor will need to submit a written request for coverage consideration.

## **FREQUENTLY ASKED QUESTIONS**

### **What is the difference between brand name drugs and generic drugs?**

When a drug company develops a new medication they apply for a patent. This patent protects the drug from being copied by other drug companies for a certain period of time. These drugs are brand name drugs. Once the patent period expires, other manufacturers can produce the same drug as long as they follow strict guidelines established by the Food and Drug Administration's (FDA) guidelines. These same drugs are generic drugs. Generic drugs are less expensive versions of those brand name drugs whose patents have expired. They are made with the same active ingredients of the brand name drug, but they may have a different color, shape or filler material. The cost of a generic drug is typically less than a brand name drug. All generic medications are approved by the FDA before they are released on the market.

### **What is the difference between a generic equivalent and a generic alternative?**

A generic equivalent is a medication that contains the same active ingredient and works the same way as the original brand name drug. A generic alternative is a generic medication that may not have the same active ingredient, but works in the same way as another drug.

### **What is a maintenance drug?**

A maintenance drug is a medication used to treat a chronic condition like diabetes or high blood pressure. The FDA must approve maintenance drugs as safe for long-term use. Blue KC uses a national drug information database called First DataBank to determine which medications are included on the maintenance drug list. If your prescription is a maintenance drug, you can have it filled for several months instead of just one prescription at a time.

### **Does Blue KC cover all prescription drugs?**

Blue KC covers most prescription drugs. However, some drug classes require an additional benefit be added to your health insurance plan in order to be covered. This additional benefit is referred to as a 'rider.' Examples of such drug classes are fertility, birth control, impotency, and weight loss.

### **How is the tier level status determined for medications?**

The PDL is a list of prescription medications that have been reviewed and recommended by the Blue KC Medical and Pharmacy Management Committee. The list has a combination of brand name and generic medications. Each of these medications has been reviewed for its safety, effectiveness, clinical outcomes, and cost. Doctors and pharmacists on the committee look at drug utilization issues, the number of adverse events, and any proven advantages over other drugs on the PDL. The most efficient and cost-effective drugs are on Tier 1 of the PDL. All other drugs are designated Tier 2 or Tier 3 status.

### **Why does Blue KC require prior authorization for some drugs before they are covered?**

Blue KC may require prior authorization for some drugs or a class. Medications on the prior authorization list may have safety concerns or have FDA approval, only for a certain use. Some of the prior authorization medications may also have a lower-cost alternative that should be considered first or the drug may not be as effective as something else in the same drug class. Some medications are also on the prior authorization list because they have the potential to be misused. Your doctor and Blue KC will work together to get prior authorization and approval for your prescription when needed.

### **Do I need to show my member ID card at the pharmacy?**

Yes, show your member ID card to your pharmacist whenever you have a prescription filled. Your prescription claim is electronically transmitted to Blue KC when you fill your prescription. Please make sure the pharmacy has your most current health insurance information and correct birth date so there won't be any delays or claim denials when we process your claim.

### **What do I do if I need to refill my prescription early (i.e., leaving on vacation, the doctor increased my dosage)?**

To have a prescription refilled early, have your pharmacist call the Pharmacy Customer Service unit at 816-395-2176 or 800-228-1436, Monday through Friday from 8 a.m. to 5 p.m. Central Time.

### **What if I am out of town and need to have a prescription filled?**

Blue KC contracts with most major pharmacy chains and has a network of over 44,000 pharmacies nationwide. If the pharmacy you are using has difficulty in processing your prescription claim, have them contact the Pharmacy Customer Service unit for assistance at 816-395-2176 or 800-228-1436, Monday through Friday from 8 a.m. to 5 p.m. Central Time.

### **Why must some drugs be purchased through a Specialty Pharmacy?**

Specialty drugs are those that require special ordering, handling, clinical monitoring and/or customer service. These drugs are best purchased through a Specialty Pharmacy. Blue KC has a network of Specialty Pharmacies available to provide specialized care for patients with complex chronic health conditions to obtain their medications and manage their health conditions. Specialty medications are limited to a 34 day supply.

### **What if I have questions about my prescription drug coverage?**

For more information on your prescription drug coverage, call the Pharmacy Customer Service unit at 816-395-2176 or 800-228-1436, Monday through Friday from 8 a.m. to 5 p.m. Central Time.

## **DRUG UTILIZATION MANAGEMENT**

### **Acne Medications**

- Members will be required to try and fail a generic doxycycline product before coverage of a brand name product such as Doryx, Adoxa or Oracea.
- Coverage of Solodyn and Minocycline ER will require trial and failure of at least one generic topical retinoid and one generic doxycycline. Initial authorization will be limited to a 12-week course of therapy.
- Members will be required to try and fail a generic topical acne product before coverage of a brand name product. This applies to all topical products including cleansers and kits. For example, use benzoyl peroxide/clindamycin before coverage of Benzacilin or azelaic acid before coverage of Azelex.

### **Antidepressant Medications**

- Members will be required to try a generic antidepressant before coverage of a brand name antidepressant medication. For example, use sertraline, citalopram, or fluoxetine, before Lexapro, Pristiq, or Cymbalta.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

### **Antifungals**

- Sporanox requires prior authorization for the treatment of fungal infection of the fingernails and toenails. It is covered only if at least one of the following medical conditions is present:
  - Diabetes mellitus
  - Compromised Immune System
  - Peripheral vascular disease
  - Impaired ambulation
  - Severe pain and debilitation
  - Soft tissue involvement around nail bed

Authorization is granted for one course of treatment per year. Continuation of therapy would require follow-up review.

### **Antihypertensive Medications-Angiotensin-II Receptor Blocker (ARB), Calcium Channel Blockers (CCB), and Direct Renin Inhibitors**

- Members will be required to try one generic ARB Inhibitor before coverage of a brand name ARB.
- Members will be required to try one generic CCB before coverage of a brand name CCB.
- Members will be required to try a generic ARB before coverage of a direct renin inhibitor (i.e. Tekturna)
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

### **Anti-inflammatory Medications (NSAIDs and COX-2s)**

- Brand and generic NSAIDs and COX-2 inhibitor medications are subject to maximum daily dosages.
- Members will be required to try two generic NSAIDs before a brand name NSAID or COX-2 will be covered.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

### **Asthma Inhalers**

- All short-acting, beta-2 agonist metered-dose inhalers (i.e., albuterol, ProAir, Alupent, Maxair, Proventil, and Ventolin) are limited to a maximum quantity of 2 inhalers per month.

### **Blood Glucose Test Strips**

- Members will be required to try either Accu-Chek or One Touch test strips as step 1 before Freestyle or Contour test strips.
- Prior authorization will be required for a step 2 product (Freestyle or Contour).

### **Buprenorphine for Opioid Dependence**

- All buprenorphine (Subutex/Suboxone and buprenorphine) products will require prior authorization and will only be covered for patients with a diagnosis of opioid dependence.
- Subutex/Suboxone and buprenorphine will not be covered for patients with a diagnosis of pain or those with concurrent opioid use.

### **Cholesterol-Lowering Agents**

- The statin class of drugs, which include lovastatin, pravastatin, simvastatin, atorvastatin and Crestor are limited to once-daily dosing.
- Zetia is also limited to once daily dosing.

- Members will be required to try a generic statin before coverage of another brand name statin product. For example a member will be required to use lovastatin or simvastatin before coverage of Crestor.
- Members will be required to try a generic statin before coverage of Zetia. For example a member will be required to use atorvastatin or simvastatin before coverage of Zetia
- Members will be required to try a generic fibrate before coverage of another brand name fibrate product. For example a member will be required to use fenofibrate before coverage of Trilipix.
- Self-injectable Praluent and Repatha and Kynamro will require prior authorization criteria
- Juxtapid will require prior authorization criteria

**Crohn's Disease:** these medications must be purchased through a network Specialty Pharmacy

- Prior authorization required for Humira and Cimzia.
- Prior authorization is also required for Remicade and Tysabri. These are covered under the medical benefit

#### **Compounded Medications**

- Prior authorization is required for claims priced at \$50 or more.

#### **Dipeptidyl Peptidase-4 (DPP-4) Inhibitors for Diabetes**

- Members will be required to try a generic metformin or metformin-containing combination product before coverage of a DPP-4. For example, a member will be required to try metformin or Avandamet before coverage of Tradjenta.

#### **Epinephrines**

- Step therapy on the epinephrines requires trial of EpiPen before coverage of Auvi-Q.

#### **Gabapentin Step Therapy**

- Members will be required to try generic gabapentin before coverage of a brand name gabapentin.

**Growth Hormone Therapy:** these medications must be purchased through a network Specialty Pharmacy

- All growth hormone products require prior authorization and are covered under the pharmacy benefit.
- If approved, authorization will be given for our preferred agent, Omnitrope.
- Documented trial and failure of Omnitrope will be required before prior authorization of another brand growth hormone.

#### **Headache/Pain Management**

- Medications used for the acute treatment of migraines, including sumatriptan, naratriptan. Maxalt, Zomig, Axert, Frova, Relpax and Treximet are limited to quantities appropriate to treat 3 to 4 headaches per month.
- Migranal is limited to a quantity of 8 spray devices per month.
- Stadol (butorphanol) Nasal Spray is limited to a maximum quantity of 4 bottles per month.

**Hepatitis C Medications:** these medications must be purchased through a network Specialty Pharmacy

- Prior authorization will be required on all Hepatitis C medications to ensure patients are receiving the medications for the appropriate length of therapy based on manufacturer's dosing guidelines.

#### **Influenza Therapies**

- Relenza and Tamiflu are limited to one course of treatment per flu season.

#### **Impotency Medication**

- Medications used for the treatment of impotency are covered by a separate benefit rider.
- All impotency medications are limited to a maximum quantity of 6 metric units per month.
- Prescriptions for Viagra will be denied if there is a claim record of a nitrate-containing medication because these medications should not be used together.

**Multiple Sclerosis Medications:** these medications must be purchased through a network Specialty Pharmacy

- Members will be required to try Avonex, Rebif and Betaseron before coverage of Extavia
- Members will be required to try one self-injectable (i.e. Avonex, Rebif, Copaxone) or IV therapy (Tysabri) before coverage of Gilenya.

#### **Nasal Steroids for allergies**

- Members will be required to try a generic nasal steroid before coverage of another brand name product. For example a member will be required to use fluticasone or flunisolide before coverage of Nasonex or Veramyst.

- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

### **Narcotic Analgesics**

- Narcotic analgesics are subject to maximum daily dosages. Quantities above the recommended daily maximum dosages require prior authorization.
- All short acting fentanyl prescriptions will require prior authorization and will only be covered for patients with cancer pain.
- Members will be required to try a generic long-acting opioid before coverage of a brand name opioid (i.e. Oxycontin, Embeda, Exalgo, and Opana).

### **Overactive Bladder Therapies**

- Members will be required to try a generic overactive bladder agent before coverage of a brand name product. For example, a member will be required to try oxybutynin or trospium before coverage of Vesicare.

### **Proton Pump Inhibitors (omeprazole, Nexium, Aciphex)**

- Members are encouraged to use Over-the-counter (OTC) products at the advice of their physician
- Members must try and fail a generic prescription product prior to coverage of a branded proton pump inhibitor.

### **Provigil/Nuvigil**

- Coverage of Provigil and Nuvigil will be limited to FDA approved indications and those off-label indications where there is sufficient clinical data to support their use (i.e. fatigue with MS or ADHD).

**Psoriasis:** these medications must be purchased through a network Specialty Pharmacy

- Prior authorization required for Enbrel, and Humira.
- Prior authorization is also required for Remicade, Amevive and Stelara. These are covered under the medical benefit

**Rheumatoid Arthritis and other arthropathies:** these medications must be purchased through a network Specialty Pharmacy

- Prior authorization is required for Cimzia, Enbrel, Humira, and Simponi
- Prior authorization is also required for Remicade, Orencia and Rituxan. These are covered under the medical benefit

### **Sedative Hypnotics for sleep disorders**

- Members will be required to try a generic sedative hypnotic before coverage of a brand name product. For example a member will be required to use zolpidem or zaleplon before coverage of Rozerem or Lunesta.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

### **Topical Corticosteroids**

- Members will be required to try a generic topical corticosteroid before coverage of a brand name product. For example a member will be required to use betamethasone or fluocinonide before coverage of Luxiq or Vanos.

### **Topical Testosterone**

- Coverage of topical testosterone therapies will require prior authorization and be limited to FDA approved indications and those off-label indications where there is sufficient clinical data to support their use.
- Step therapy will also apply. Members must try and fail step 1 medications Testim or Androgel before approval will be given for step 2 medications Axiron, Fortesta, Vogelxo.

### **Weight Loss**

- The medical treatment of obesity is excluded by contract for most plans.
- Some groups may have a rider, and coverage is provided for prescription anorexiant.

## Miscellaneous Information

- **Self-Injectable Medications**

The self-injectable drugs in the following list are covered under the medical benefit, not the pharmacy benefit:

<b>Self-Injectable Medications That Are Paid Through The Medical Benefit</b>
• Darbepoetin (Aranesp)
• Epoetin Alfa (Epogen or Procrit)
• Pegfilgrastim (Neulasta)
• Filgrastim (Neupogen)

- **Outpatient Prescription Drug Calendar Year Maximum**

Some pharmacy benefit plans have a maximum dollar amount allowed per calendar year.

The following chart lists medications that are available through the pharmacy benefit and do not apply to the outpatient prescription drug calendar year maximum.

<b>Medications That Do Not Apply to the Outpatient Prescription Drug Calendar Year Maximum</b>	
• Adalimumab (Humira)*	• Interferon Gamma-1B (Actimmune)
• Anakinra (Kineret)*	• Interferon/Ribavirin (Rebetron)
• Etanercept (Enbrel)*	• Oral Chemotherapeutic Agents
• Dornase Alfa (Pulmozyme)	• Oral Immunosuppressants
• Glatiramer (Copaxone)	• Peg interferon Alfa-2A (Pegasys)
• Interferon Alfa-2B (Intron A)	• Peg interferon Alfa-2B (Peg-Intron)
• Interferon Alfacon-1 (Infergen)	• Ribavirin (Copegus, Rebetol)
• Interferon Beta-1A (Avonex, Rebif)	• Tobramycin 2% Ampules (Tobi)
• Interferon Beta-1B (Betaseron)	• Teriparatide (Forteo)
• Growth Hormone*	• Antidiabetic medications and supplies
* <b>This drug requires prior authorization before purchase.</b>	

## Specialty Pharmacy

A Specialty Pharmacy is one that provides specialized care for patients with complex chronic health conditions such as Rheumatoid Arthritis, Multiple Sclerosis or Psoriasis. These pharmacies do everything from dispense the specialty medication to help patients manage their health condition. The following is a list of other services provided by the Specialty Pharmacies:

- Assigns a Patient Care Coordinator who serves as a personal advocate and point of contact
- Offers access to a dedicated clinical staff of nurses and pharmacists who are knowledgeable about the medications and conditions
- Provides the necessary supplies to administer the medications — at no additional cost
- Offers care management programs to help patients get the most from their medications
- Provides patients with refill reminder calls
- Allows the medications to be delivered to either the physician’s office or patients home
- Works directly with patients to arrange a convenient shipment date
- Ships all medications overnight
- Coordinates with Blue KC to take care of billing issues

These services are provided to you at no additional cost. Prescriptions for a specialty medication will need to be filled at a designated Specialty Pharmacy. The following is a list of Blue KC network Specialty Pharmacies that you or your physician may contact:

<b>Accredo</b>	Phone: 877-259-2295	<b>Walgreen’s Specialty</b>	Phone: 888-884-8714
	Fax: 888-773-7386		Fax: 877-231-8302

Most specialty medications are covered under the pharmacy benefit. Specialty medications are limited to a 34 day supply. For a list of those self injectable specialty medications that are covered under the medical benefit, please see the list provided on the previous page. The following is a list of some of the most common health conditions and medications managed by Specialty Pharmacies:

Health Condition	Medications
Cystic Fibrosis	Pulmozyme, Tobi
Hepatitis C	Pegasys/Copegus, Peg-Intron, Intron-A
Multiple Sclerosis	Avonex, Betaseron, Copaxone, Rebif
Oral chemotherapy	Tarceva, Sutent, Gleevec,
Osteoporosis	Forteo
Psoriasis	Enbrel, Humira
Pulmonary Arterial Hypertension (PAH)	Tracleer, Ventavis
Rheumatoid Arthritis	Enbrel, Humira
Growth Hormone	Omnitrope, Nutropin, Humatrope
HIV	Atripla, Truvada, Stribild
